# European Vision Technology Market Statistics 2009

The annual EMVA report in a new and extended version

## REPORT SUMMARY

Data from over 180 companies in the European machine vision industry have been evaluated for this report. The data has been primarily collected directly from the companies in a questionnaire-based survey, complemented by numerous interviews with experts across Europe. In addition to the analysis of machine vision in Europe, two country-specific chapters provide in-depth information of the machine vision industry in Germany and Italy.

The study shows current trends and developments and identifies growth opportunities for the machine vision industry.

## FIND OUT ABOUT

- The European machine vision industry
- Suppliers
- Applications and customer industries
- Developments in all major machine vision product categories
- Technology and market trends
- Developments of European and world markets

## PRICE:

EMVA members: 990,00 EUR + VAT

Non-members: 1.490,00 EUR + VAT

(see order form on page 4)

# European Vision Technology Market Statistics 2009

The 5th market survey conducted by the EMVA has been expanded and re-structured. Readers will find it even more comprehensive and readable.

## WHAT ARE THE BENEFITS?

The European Vision Technology Market Statistics provides up-to-date European industry data for both experts and machine vision newbies. Industry outsiders benefit from detailed explanations of technical terms and the all-new chapter “Introduction to machine vision technology”.

## METHODOLOGY

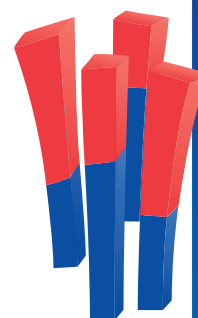

The European Vision Technology Market Statistics is designed as an industry study covering machine vision companies which have their headquarters and/or subsidiaries in Europe. The results are based on research using a wide range of sources as well as on in-depth industry interviews. A direct, questionnaire-based survey of machine vision companies in Europe forms the core of the report. The report covers machine vision industry sales in 2008.

## WHO SHOULD BUY THIS REPORT?

- Enterprises in the machine vision industry
- Stakeholders from industry related areas, i.e. financial institutions, the investment community
- Business planners and analysts
- Users of machine vision technology wishing to find out more about trends and developments

## WHAT DO YOU GET?

The report is a valuable source for strategic decision-making for companies and investors alike. Readers will find easy-to-understand and reliable, in-depth information on the machine vision industry in Europe, including product categories, customer markets, and background information on the economic development in Europe and the emerging markets.

## CONTENTS

### EXECUTIVE SUMMARY

#### REPORT OVERVIEW

- Introduction
- Report structure
- Purpose and target groups
- Methodology

#### GENERAL ECONOMIC REMARKS AND OUTLOOK

- World economy
- Emerging markets
- Financial markets
- Economic status in selected machine vision customer industries

#### INTRODUCTION TO MACHINE VISION TECHNOLOGY

- What is machine vision?
- Significance and applications of machine vision technology
- Financial payoff of machine vision applications
- Current trends in machine vision

#### MACHINE VISION INDUSTRY IN EUROPE

- Total turnover of European vision technology suppliers
- Shares of companies by employees
- Origin of purchased vision components
- Customers of vision technology
- Applications of vision technology
- Application-specific systems
- Configurable systems
- Smart cameras
- Vision sensors
- Cameras
- Frame grabbers
- Optics
- Lighting
- Vision software
- Interfaces and cables
- Conclusions and forecast for 2009

#### COUNTRY SURVEY: GERMANY

- Market particularities
- Market development/turnover
- Structure of companies
- Origin of purchased components
- Customers of German machine vision technology
- Applications of machine vision
- Machine vision products and trends
- Conclusions and forecast for 2009

#### COUNTRY SURVEY: ITALY

- Market particularities
- Market development/turnover
- Structure of companies
- Customers of Italian machine vision technology
- Applications of machine vision
- Machine vision products and trends
- Human resources
- Financing
- Conclusions and forecast for 2009

#### OPPORTUNITIES FOR EUROPEAN MACHINE VISION COMPANIES

- Emerging markets – the BRIC countries
- Socio-cultural trends

#### LIST OF FIGURES

- Gross domestic product first quarter 2009
- Gross domestic product first quarter 2009
- Total turnover of European vision suppliers in 2008 by regions
- Shares of turnover of European companies to the main regions change 2007/2008
- Shares of turnover of European companies to the main regions 2007/2008

- Shares of companies by employees in percent
- Origin of purchased components
- Total turnover of machine vision systems – shares by industry sectors
- Turnover of European machine vision – by customer type
- Turnover of vision systems of European suppliers – by applications 2007/2008
- Turnover of European machine vision products – change in percent
- Total turnover European machine vision – by product types
- Unit sales of European machine vision 2007/2008 – vision systems
- Turnover of European application-specific systems – by applications....
- Unit sales of European machine vision 2007/2008 – components
- Turnover of exports of machine vision from Germany – to countries/regions
- Exports of machine vision products from Germany – change in percent
- Shares of companies by employees in percent – Germany
- Origin of purchased components of machine vision companies – Germany 2007/2008
- Origin of purchased components of machine vision companies – Germany 2002 – 2008
- Total turnover of machine vision – Germany by sectors
- Turnover of machine vision – Germany by customer type
- Turnover of machine vision systems - Germany by applications
- Turnover of application-specific systems –
- Germany by share of applications
- Turnover of configurable systems – Germany shares of applications
- Turnover of smart cameras – Germany shares of applications
- Turnover of vision sensors – Germany shares of applications
- Turnover of machine vision – Germany by products
- Unit sales machine vision – Germany by products
- Total turnover of machine vision – Germany 1998 – 2008
- Shares of exports – Italy to main regions 2007/2008 in percent
- Turnover of machine vision – Italy by regions in percent
- Shares of companies by employees in percent – Italy
- Shares of companies by employees in percent – Europe without Germany
- Turnover of machine vision systems – Italy by sectors
- Turnover of machine vision – Italy by customer type
- Turnover of machine vision – Italy shares by applications
- Turnover of machine vision – Italy shares by products
- Turnover of machine vision products – Italy changes 2007/2008 in percent

#### LIST OF TABLES

- Total turnover machine vision from Europe
- Total turnover machine vision from Germany
- Total turnover machine vision from Italy
- Prime rate levels in the EU zone and other industrialized countries
- Total turnover of machine vision by countries/regions from Europe
- Total turnover of machine vision by countries/regions from Europe, without sales out of Germany
- Total turnover of European vision product suppliers – by product types
- Total turnover of machine vision by countries from Germany
- Turnover of German vision system suppliers by customers
- Turnover of German vision system suppliers by applications
- Turnover of German suppliers of application-specific systems by applications
- Turnover of German suppliers of configurable systems by application
- Turnover of German suppliers of Smart Cameras by application
- Turnover of German suppliers of vision sensors by application
- Total turnover of German vision product suppliers – by product types
- Unit sales of German vision product suppliers
- Total turnover of machine vision by countries / Italy
- Turnover of Italian vision systems – by customer industries
- Total turnover of Italian vision systems – by applications
- Total turnover of Italian vision product suppliers – by product types
